Lakbay: A Three-Dimensional Game about Driving Fundamentals and Road Courtesy and Safety of Gear-1 Driving School

Part B Defense Date
June 08, 2021

KHWEEN PRINCESS MONCAYO Thesis Adviser	**HANNIE MAY G. DEFACTO** Proponent
PAULO M. RODRIGUEZ Thesis Critic	**JOHN PAUL R. CONSUELO** Proponent
	NOMMEL ISANAR L. AMOLAT Proponent

The following comments/suggestions were given as feedbacks during the Part B Defense:

Documentation	System
Chapter 1 • Specify the available languages (English and Filipino) supported in the game in the Objectives of the Study. • Remove the statement on the age limit and advisable age for the game to play in the Limitations of the Study. • State the services that the client offers which are not supported by the system in the Limitations of the Study. • For the minimum system requirements specifications, put it inside the document on Hardware and Software Resources Recommended in the Limitations of the Study.	Make the game mechanics of the Linear Play Phase simpler and remove complex controls such as the steering wheel.
Chapter 3 • Change the title of Chapter 3 from "Methodology" to "Theoretical Framework".	Improve the background environment. Make the objects such as trees much more distinguishable.
Appendices	Add additional time for the time per question.

• Modify the Gantt Chart. It is supposed to be a plan for the whole timeline/months of the development of the system.	
	Change the solid line in the road into broken lines.
	Place credits/acknowledgement for LTMS Portal.
	Categorize the difficulty of questions and shuffle them according to their level of difficulty and ask the client to verify/validate the questions.
